Color Palette

- 0D0630**: General background color.
- 18314F**: Mixes with the general background color.
- 384E77**: Mixes with previous two colors in background elements.
- 8BBEB2**: Highlight color for more prominent elements.
- E6F9AF**: Highlight color, often used for important text such as links.

-Colors are often lowered in opacity, especially background colors (As seen in wireframes). I find it keeps foreground elements more prominent.

Typography and Text Samples
